

Email Migrations

G- Suite to Office 365 and Share Point

Office 365

G Suite

Email migration from G- Suite to Office 365

Migrated for a State client

The best email migration option is Microsoft Office 365 as it offers email, calendars, contact management, and also integrates all Microsoft's exiting online applications such as Word, Excel, PowerPoint, OneNote, Outlook, Publisher, Sway and access into a cloud service, adding Skype for Business and Microsoft Teams as the main communication. It also provides 50GB of online email storage to each of its users that can be synced to smartphones, tablets, personal computers and MACs using ActiveSync.

We at Software Technology Inc. (STI) specialize in Microsoft products and we will help you decide if migration is the best option for your business and if the migration can benefit your business we will suggest the best application that best suits your business and provide you the support you need.

Recently, state client for a specific department ,Software Technology Inc. (STI) has provided Migration from G-Suite to Office 365, where the client needed mail migration and file migration of 258 user accounts and Drive and configuration of Teams in sharepoint , We migrated their emails, inbox, calendar, contacts, etc., and Google drives data to onedrive with the total size of 8TB data.
